Selenite

Our famous Legs planter is inspired by the legs of a giraffe. Elegant, long and slowly moving. Offers peace to any space.

A photograph of three vases in a modern gallery. The vase on the left is white, the middle one is black, and the one on the right is gold. They are all tall and slender with a bulbous middle section and a flared top and bottom. The background is a white wall with a black perforated band and a dark ceiling with recessed lighting.

I believe in less is more
where individual, oversized
items are interior
